Subject: CIC Meeting Report Out

Hi Bill and Stan,

Since neither of you were available for the CI meeting below is a report out and action items.

● Superfund Program Review:

- Unit Supervisors would identify one RPM's from their Unit by COB April 11 to participate in the Superfund Program Review meeting to be facilitated by HQ's in May.

○ Bill – some thought that if this meeting was about being more efficient with resources then we should be using a Region 8 facilitator as opposed to having someone from HQ's fly out to facilitate the meeting. Thoughts? I'm open either way.

○ I will be working on an agenda for the ½ day meeting and share with the Superfund Unit Manager's and Bill.

●□□□□□□□□ Superfund websites:

○ Updated Joe on reevaluating the website review process since he was not involved in the website meeting.

○ Steve and I will be meeting to discuss next steps and then follow up with Louise, Fran and Bill to discuss options.

●□□□□□□□□ New CIC site assignments:

○ Cynthia and Jasmin will be joining our Unit on April 21.

○ I'm still working through site reassignments. What's confirmed for now is:

▪ Cynthia will be taking on: Upper Cement Creek/Animas and mentoring with Jennifer on Smurfitt Stone.

▪ Jasmin will be taking on Lincoln Park, mentoring with Chris Wardell on Colorado Smelter and possibly Eagle Mine.

▪ They both will be assigned to assist with upcoming 5 year review. Tentatively: Kennecott, Uravan, Libby Groundwater, and Richardson Flat. There may be others. I'm still working through the list.

●□□□□□□□□ OCPI Immediate Office and myself will be meeting with EPR management on April 23 to discuss how best to get out good news stories with the various communications tools we have available to us.

Joe, Steve, Russ and Rob if I've missed anything or captured anything incorrectly please chime in. Next meeting will be in June.

Thanks, Libby
